Good morning Debbie,

Hope you are enjoying the holiday season. In Carl's absence, I am sending on to you the reservation specific FIP that the region has developed for the U&O reservation. Attached, please find the Federal Register Notice and the Technical Support Document for your review and comment. The documents have undergone internal EPA technical level review and the attached documents incorporate the comments we have received. We last consulted with the Ute Tribe on 12/17/15 on this rulemaking and have a follow up consultation scheduled with the Tribe on 1/14/16 to answer any additional questions they may have about this rulemaking. We are hoping to follow closely behind the national oil and gas rulemaking schedule and finalize this FIP in early summer 2016, which we realize is a very aggressive schedule. I believe you are aware of the background related to this FIP, however, if you have any questions or need additional information, please do not hesitate to contact me or Carl, who will be back in the office on 1/4/16.

Thanks in advance,

Dee Rothery
